Title: Anytime-valid monitoring of repeated survey estimates under questionnaire redesign: An application to the Business Trends and Outlook Survey

Short title: Anytime-valid monitoring of survey series

Author: Quang-Vinh Dang

British University Vietnam, Hung Yen, Vietnam

ORCID: 0000-0002-3877-8024

Corresponding author: Quang-Vinh Dang, vinh.dq4@buv.edu.vn

Keywords: sequential monitoring, e-values, group invariance, survey redesign, repeated surveys, official statistics

Acknowledgements: None.

Declaration of Conflicting Interests: The Author declares that there is no conflict of interest.

Declaration of generative AI use: Generative AI tools were used to support the writing of code and to polish the language of the manuscript. The research idea, the methods and algorithms, and the interpretation of the results are the author's own. The author reviewed and edited all AI-assisted output and takes full responsibility for the content of the work.

Funding: The Author received no financial support for the research, authorship, and/or publication of this article.

Data availability: All data are public statistics of the U.S. Census Bureau; the analysis data set and code accompany the submission.

Ethics: No human participants were involved; only published aggregate statistics were analysed.
